EXPERIENCE

Full Stack Web Develop Learner   **Apr 2020 – Present**
Udemy
I pursue my programming dream by spending all my free time learning full stack web development.
Technologies learnt:
1. Front-End Web Development (HTML 5, CSS 3, Bootstrap, Javascript ES6, DOM, jQuery, Bash Command Line)
2. Backend Web Development(Node.js, NPM, Express.js, EJS, REST APIs)
3. Git, GitHub and Version Control
4. Deployment with GitHub Pages, Heroku
Technologies I'm learning: Databases, SQL, MongoDB, Mongoose, Authentication, Firebase, React.js

Web Designer, Front End Developer, Co-Founder   **Nov 2018 – Present**
Design+ Studio
Freelance Web Designer and Front End Developer for companies from Singapore, Hong Kong, Shanghai and etc.

Multimedia Designer   **Oct 2018 -- Present**
Suman Education International
My job is divided into two parts:
1. Managing the throughput of digital design:
• Graphic Design for marketing materials
• Website content management (design and development)
• Video Production & Photography
• Event material design and event management
2. Business collaboration and execution
• Execution of International Education Projects for 3 provinces in China
• Liaison with internal and external partners to ensure the ongoing of the project

Digital Marketing   **Jun 2017 – Aug 2017**
Sesame Street English Education
• In charge of advertising, design and promotion on digital platforms
• Support team work and generate market insight of English Learning for Chinese young children
• Created and managed relationships with key potential clients
